i-lighting™

LED Lighting Simplified

Easy Plug Installation System. Wiring Simply Plugs Together.

ILUMA INSTALLATION INSTRUCTIONS

Installation Instructions:

No Wire Cutting

1. Install the power supply with the instructions given.

2. Locate where the appropriate length light strips will be mounted.

3. Remove the backing of the double back tape and adhere the light strip to the cabinet.

4. Use the extension cables to bridge gaps between the lights strips by plugging the extensions into the light strip.

5. Fasten the extension cables to the cabinet using the self-adhesive clips provided.

6. Continue to mount the lights strips and connecting the extension cables.
