

*Easy Plug Installation System.  
Wiring Simply Plugs Together.*

## LANDSCAPE LIGHTING INSTRUCTIONS

### Installation Instructions:

**No Wire Cutting**

- 1.** Install the power supply with the instructions given.
- 2.** Turn the system on by unplugging the black connector on the white wire and continue with installation. This unplugs the photo eye.
- 3.** Connect the power supply to the first extension cable or landscape light by plugging in the black connectors.
- 4.** Install the landscape lights where desired.
- 5.** Space the landscape lights apart by plugging in the black connectors on the extension cables into the landscape light.
- 6.** Continue to connect all the landscape lights together
- 7.** When the system is installed, re-plug the white photo eye wire.
